CAN WE PREVENT ANOTHER DIESELGATE’?

Sheila Watson

Deputy Director and Director of Environment and Research, FIA Foundation

London, June 8th 2016
SAFE CLEAN FAIR & GREEN Mobility for All
SAFE CLEAN FAIR & GREEN Mobility for All

OUR GLOBAL MOBILITY ACTION AGENDA

With several targets included in the new Sustainable Development Goals (SDGs), a key role is recognized in the Paris Climate Change Agreement, and mobility at the core of the Habitat III New Urban Agenda document, this is a critical time for transportation policy.

FIA is using its unique worldwide network of experts to engage governments, industries, industries, and the wider public in the development of new sustainable transport solutions, including clean mobility approaches. By working with experts from around the world, we are making a difference in the fight against climate change and for a cleaner, safer, and fairer future for all.
CATALYTIC PARTNERSHIPS:

- Evidence
- Capacity-building
- Advocacy
Reducing Pollution Emissions

FACT SHEET

Non Motorised Transport (NMT)

Benefits of NMT

1. Non-motorised transport is cost effective. Costs and benefits are calculated.

2. Non-motorised transport is a healthy way to travel.

3. Non-motorised transport is a safe way to travel.

4. Non-motorised transport is environmentally friendly.

5. Non-motorised transport is a sustainable way to travel.

6. Non-motorised transport is a cost-effective way to travel.

7. Non-motorised transport is a healthy way to travel.

8. Non-motorised transport is a safe way to travel.

9. Non-motorised transport is an environmentally friendly way to travel.

10. Non-motorised transport is a sustainable way to travel.
